GAS LOG FIRES  
FREESTANDING & INBUILTS

# why choose Regency?

An exceptional fire, custom elegance and controllable heat are just a few reasons to make a Regency fire part of your family.

In 1979, I founded Regency Fireplace Products with a mission to produce the finest fireplace products available anywhere. As a result, Regency has been honoured with awards for exceptional aesthetics and performance and is known as the premium brand around the world. We have been dedicated to providing Australia & New Zealand with Regency fires for over 20 years: committed to creating products that promote comfort and peace of mind.

I am so confident in the quality workmanship, the finest materials and durable heavy-duty construction invested in each and every product, that I offer a Limited Lifetime Warranty. Invite the comfort, efficiency and style of a Regency gas or wood fire into your home and enjoy quality time for a lifetime - I guarantee it.

Robert Little  
Founder & CEO

### why choose a gas inbuilt?

A Regency Gas Inbuilt is a specially engineered, sealed gas fire that slips into your existing masonry fireplace to create a high efficiency heating system with a stunning fire. The sealed firebox means that you will keep all of the heat generated by your Regency inside your home. Even when your gas inbuilt is turned off, you will not lose heat up your chimney.

## IP-28 gas inbuilt

### Supreme Convenience

Transform your drafty fireplace to a modern room sealed heater. Rated at 4.3 stars, the Regency IP28 combines modern style with the efficiency and convenience of a realistic gas log fire. Like all Regency Gas Inbuilts, the contemporary IP28 will fit into most existing chimneys or can be built into a timber framed cavity. With amazing heat output other key features include clean straight lines, choice of fascias; a powerful 2 speed fan; and optional stainless reflective panels to amplify the appearance of the fire.

#### Standard Features

- Natural gas or LPG
- Stainless steel heat exchanger & burner
- Powerful 2 speed fan
- Electronic ignition
- Rear flued power venting system
- 6.49kW (output) - 29MJ NG/LPG (input)

#### Optional Features

- Contemporary or Slim Line Fascia
- Stainless steel inner reflective panels
- Modular Fireplace Solution kit
- Advanced remote control
- Zero Clearance kit to create your own fireplace
- LPG & ULPG conversion kits

# accessories

## FireGenie® Remote Control (for electronic units only)

- Electronic ignition - no pilot light
- 7 day programmable times
- 2 time zones per day
- Radio frequency
- Thermostatic control
- Adjust flame & fan from remote

## Advanced RF Remote Control (for manual units only)

Choose the Advanced Radio Frequency remote control/thermostat featuring 7 day programming and not only make your Regency gas inbuilt more convenient but you can actually save on running costs while maintaining your comfort level.

## AstroCap™ (for direct vent horizontal termination only)

The patented AstroCap will finish off the flue system on the outside of your home making it far more attractive than traditional flue systems. The AstroCap can even be painted to match your home.

AstroCap™
