REGENCY MANSFIELD™

Wood See-Through Fireplace

Mansfield shown with 30mm finishing trim.

There are 2 sides to every fire. This see-through gives you 2x the viewing area and 2x the control. Regency now provides an option to choose 2 rooms that benefit from this wood heater. Designed to not only meet, but exceed the very latest Australian requirements for emissions and efficiency, this is the latest in heating technology.

STANDARD FEATURES

- Heats approx 100 - 200 sq.m* (depending on the number of fans fitted and ducting kits)
- Large see-through glass viewing area (790mm x 310mm)
- Draft control, accessible on each side, with airwash
- Removable door handle tool
- Wood loading ability, on each side
- Stainless steel andirons
- 5mm steel firebox - lined with high quality firebrick
- Reduced Clearance box included
- Low emissions: 1.3 g/kg
- 63% efficiency

Mansfield shown with 50mm finishing trim and mandatory ventilation grill.

OPTIONS

- Slim line finishing trims available (30mm & 50mm)
- Base frame kit – raises unit 300mm on sturdy steel frame
- Heat distribution kit with flexible ducting, up to 2 can be used
- Outside air kit with flexible ducting
- Regency triple skin, zero clearance, wood fire flue kit available (must be used with this appliance)

**Heating capacity and any burn times are a guide only and can be affected by some or all of the following examples: drafts under doorways or between floorboards, large glass areas not covered by heavy drapes/curtains, green, wet or damp wood, ceiling heights greater than 2.4 metres or cathedral type ceilings, poor or no insulation.*

REGENCY MONTROSE

Large Wood Fireplace

Montrose shown with 50mm trim.

The Montrose is designed to fit into a custom built wall without a brick fireplace or chimney ensuring it can be featured in any room. As a slow combustion heater the unit can be controlled to maximize heat output as well as wood usage. Designed to not only meet, but exceed the very latest Australian requirements for emissions and efficiency, this is the latest in heating technology.

STANDARD FEATURES

- Heats approx 100 - 200 sq.m* (depending on the number of fans fitted and ducting kits)
- Large glass viewing area (790mm x 310mm)
- Single draft control with airwash
- Removable door handle tool
- 5mm steel firebox – lined with high quality firebrick
- Stainless steel andiron
- Reduced Clearance box included
- Low emissions: 1.2 g/kg
- 62% efficiency

Montrose shown with 50mm trim.

**Heating capacity and any burn times are a guide only and can be affected by some or all of the following examples: drafts under doorways or between floorboards, large glass areas not covered by heavy drapes/curtains, green, wet or damp wood, ceiling heights greater than 2.4 metres or cathedral type ceilings, poor or no insulation.*

REGENCY BERWICK®

Medium Wood Insert

Berwick wood insert.

The Berwick wood fire is a contemporary styled wood inbuilt in a convenient size that is ideal for medium sized living areas. The Berwick is designed for fireplace openings that were previously thought too small for other wood heaters. You can also create your own fireplace using the Regency approved zero clearance box.

STANDARD FEATURES

- Heats approx. 180+ sq.m*
- Large glass viewing area (458 x 260mm)
- Single rod draft control
- Strong bakelite handles
- Steel firebox with firebrick lining on the sides
- Airwash system
- Black 3-sided fascia
- 2-speed fan
- Low emissions: 0.6 g/kg
- 61% efficiency

OPTIONS

- Zero clearance kit
- Steel baffles
- Cast iron liners

**Heating capacity and any burn times are a guide only and can be affected by some or all of the following examples: drafts under doorways or between floorboards, large glass areas not covered by heavy drapes/curtains, green, wet or damp wood, ceiling heights greater than 2.4 metres or cathedral type ceilings, poor or no insulation.*

REGENCY BELLERIVE®

Large Wood Insert

Bellerive wood insert.

Designed with lifestyle in mind, the Bellerive wood fire is the ideal choice for a large family or living area with the added benefit of being developed to fit comfortably into large existing fireplaces. Most of the heat generated in Regency wood inbuilts does not escape up the chimney but is kept in your cozy home.

STANDARD FEATURES

- Heats approx. 250+ sq.m*
- Large glass viewing area (595 x 290mm)
- Single rod draft control
- Steel baffle
- Strong bakelite handles
- Steel firebox with cast iron lining & a firebrick base
- Airwash system
- Black 3-sided fascia
- 2-speed fan
- Low emissions: 0.8 g/kg
- 65% efficiency
