**DIRECT VENT
GAS FIREPLACES**

why choose Regency?

An exceptional fire, custom elegance and controllable heat are just a few reasons to make a Regency fire part of your family.

In 1979, I founded Regency Fireplace Products with a mission to produce the finest fireplace products available anywhere. As a result, Regency has been honoured with awards for exceptional aesthetics and performance and is known as the premium brand around the world. We have been dedicated to providing Australia & New Zealand with Regency fires for over 20 years: committed to creating products that promote comfort and peace of mind.

I am so confident in the quality workmanship, the finest materials and durable heavy-duty construction invested in each and every product, that I offer a Limited Lifetime Warranty. Invite the comfort, efficiency and style of a Regency gas or wood fire into your home and enjoy quality time for a lifetime - I guarantee it.

Robert Little

Regency Greenfire GF900L gas fire shown with stainless steel fascia (shown without mandatory dress guard).

why choose a direct vent fireplace?

A Regency direct vent gas fireplace is the perfect heating solution for your renovation or new construction project. In just three easy steps (see back cover), you can have a Regency Gas Fire almost anywhere in your home - no chimney needed! Select a fireplace, choose a fascia, and have it vented through an outside wall. Enjoy watching the lively, realistic fire of your new Regency while it warms your home and your soul.

Greenfire™ GF900L & GF900C

Contemporary Gas Fires

Regency Greenfire GF900L gas fire shown with a clean edge finish (shown without mandatory dress guard).

Seamless Design & Perfect Heat

The Regency Greenfire™ adds modern expression to any living space with today's sleek, linear styling. This series features seamless design and beautiful wide angle flames set on your choice of a coastal driftwood log fire or a full bed of shimmering crystals. Efficient, clean-burning zone heating has never been more stylish!

1-2-3 Instant fireplace

No chimney? No problem! The Regency Zero Clearance range enables you to have a gas log fire installed into a timber or steel framed/plasterboard "mock" chimney breast without the expense and effort of a purpose built brick chimney.

Direct Vent Technology

Direct Vent Technology is a fantastic innovation that maintains the total air quality of the home. It draws air from outside the home for combustion rather than warm room air. This means greater heating efficiency because all the warm air stays in your room. Direct Vent fireplaces can be flued vertically or out through an external wall, making them ideal for multi-storey homes where conventional vertical flues are not practical.

Enjoy your Regency - for life

You'll be happy with your Regency for years to come, our Limited Lifetime Warranty guarantees it. Not only have we invested in quality workmanship, the finest materials and durable heavy-duty construction but we have carefully selected a dealer network that is committed to your satisfaction. All Regency gas fires pass stringent Australian testing standards. We know that you will be as proud of your Regency as we are.

Limited Lifetime Warranty covers the following components: Combustion chamber, heat exchanger, burner tubes, logs, and glass (thermal breakage). Refer to owner's manual for details.

Note: All product specifications are subject to change without notice. Before installing refer to the relevant product manual for full and up to date information. Stainless steel inner panels will naturally change tone over time.

Heating capabilities of units are affected by: drafts under doorways or through flooring, large glass areas not covered by heavy drapes, ceiling heights greater than 2.4m or cathedral type ceilings, poor or no insulation and geographical locations.

Not all products are available at all outlets.
