

ELEMENTS

THE WORLD'S FIRST MODULAR FIREPLACE

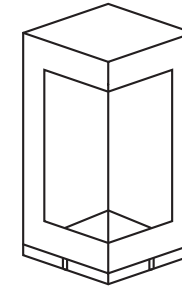

skantherm®

INTRODUCING ELEMENTS...

It all started with a question. What if?

What if there was a fireplace that could adapt to its surrounding, fit any interior perfectly? What if there was a fireplace that was also a shelving unit, a bench to sit on and a drawer to store things? What if that fireplace was also a model of efficiency, economical and respectful of the environment?

To our surprise there wasn't one so we created it.

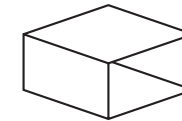

THE FIREBOX

W400 x D400 x H1017 mm

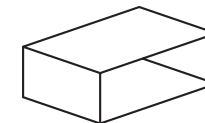

BOX 40

W400 x D400 x H197 mm

BOX 60

W603 x D400 x H197 mm

GERMAN DESIGN AWARD WINNER 2015

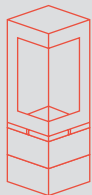

ONE FIREPLACE, ENDLESS POSSIBILITIES

Let your creative side loose and create the perfect fit for your space. Construct your own fireplace around the Elements firebox by assembling modules in

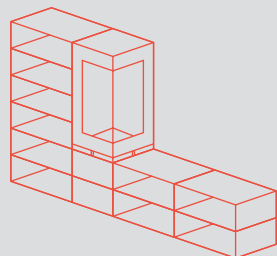

the configuration of your choice. All elements are held together by super strong magnets which makes the installation and future re-configuration super easy.
